## DUNKIRK BOMBARDED BY AIR RAIDERS

Zeppelins also Cross the Channel and Wreck Houses in Southeastern Kent, Without any Fatalities

### FIVE ARE KILLED AND SCORES WOUNDED BY AERIAL VISITORS TO THE FRENCH COAST

(By Associated Press.)

PARIS, May 20.—It is comparatively quiet at Verdun. The Germans made a thrust at the British in Flanders, attempting to cross the Yser canal north of Ypres, where they failed.

Activity also was displayed by the Germans in other sectors along the western front, notably in a gas attack in the Champagne region where the assaulting force was repulsed.

Dunkirk was bombarded by German aeroplanes. One woman was killed and 27 persons wounded. Bergues also was bombarded. Five were killed and a number wounded.

Windows were broken on the Isle of Thanet, but there was no other damage. A few bombs took effect in southeastern Kent where several houses were wrecked or damaged.

(By Associated Press.)

LONDON, May 20.—An Amsterdam dispatch quotes the Berlin Nord Deutsche Zeitung as asserting that the statement of Sir Edward Grey that the vatican endeavored to induce Germany to abandon submarines was not in conformity with the facts.

"We learned the pope intimated to Germany and the United States his willingness to mediate in the dispute between them. The emperor thanked the pope and referred him to the reply which Germany gave America."

(By Associated Press.)

BERLIN, May 20.—Failure of repeated attacks by the French between Haucourt and Esnes at Verdun is announced. Operations on the Argonne resulted in heavy losses for the French.

### SHIPPING REVIVAL IS MADE POSSIBLE

House Passes Measure Designed to Extend American Flag on High Seas

(By Associated Press.)

WASHINGTON, May 20.—The administration shipping bill designed to rebuild the merchant marine and strengthen the navy, passed the house by a vote of 211 to 161, virtually in the form introduced. The bill goes to the senate. Nolan and Kent voted for it.

The bill proposes to appropriate \$50,000,000 to be raised by Panama bonds, for the purchase, charter or lease of ships by the government. These will be sold or leased to private capital as rapidly as possible, the government reserving the right to recall them. The bill would create a shipping board of five members empowered to prevent rate discrimination.

### TONOPAH EXTENSION PRODUCED OVER \$1,500,000 LAST YEAR

At the meeting of the directors of the Tonopah Extension Mining company held yesterday in New York, General Manager John G. Kirchen submitted his annual report showing the physical condition of the property to be better than at any previous time. The report, referring to the absorption of the Tonopah Merger and Victor companies states that the fusion has brought about better operating conditions besides having saved considerable expense and endless litigation which was sure to follow as developments progressed in the several properties.

The present area of property is 5511 acres. There were mined during the year 91,981.54 tons of ore, all of which was treated at the local mill. The total gold and silver contents of this ore were 2,293,468.64 ounces of silver and 22,136.411 ounces gold, or an average of 24.93 ounces of silver and .240 ounces of gold per ton. This shows a decrease of 3.29 ounces of silver and .024 ounces of gold per ton from last year. The average price received for silver was \$0.52578 per ounce, and \$20.6718 per ounce for the gold, making the average gross value of the ore mined and milled \$18,038 per ton, of which \$13,063 was silver and \$4,975 gold.

Details of production, costs and realization follows:

	Dry tons	Total value
Ore milled	91,981.54	\$1,659,164.35
Losses in tailings		126,254.50
Recovered	92.39%	\$1,532,909.85
Receipts from Sale of Product:		
2,106,518.04 oz. silver		\$1,107,565.59
20,575.038 oz. gold		425,344.26
Total		\$1,532,909.85
Net realization		\$ 613,418.21
Mining costs are given as \$4.614, including all development; milling,		

\$4,478; losses in milling, \$1,372; freight and express, \$0,119; refining, \$0,382, making the total cost per ton, \$10,965 and leaving a profit per ton of \$7,073.

A total of 13,367 feet of development work was done during the year. A comparison of costs shows a decrease of \$0.511 per ton this year.

#### RUSSIAN FARMERS COMING TO WESTERN COUNTRY

(By Associated Press.)  
YOKOHAMA, Japan, May 20.—The steamer Sado Maru which sailed for Canada and the United States carries eighty-five Russian farmers who are seeking occupation in America. They say they are leaving Russia owing to the depressed conditions prevailing in their villages of Siberia.

#### FORCE INCREASED

D. H. Walker, superintendent of the alum-potash property north of Blair, which is under lease to Victor Barndt and associates, has returned from the camp, where he put an additional force to work.

#### ANOTHER MILL RUN

Percy Train is in from Manhattan. He and his partner, Mr. Chase, have another lot of high grade ore ready for milling. It was taken from their lease on Mustang hill.

### SLAUGHTER REMOVED TO THE PENITENTIARY

(By Associated Press.)  
OROVILLE, May 20.—Hand-cuffed, in custody of Sheriff Riddle, Rev. Madison Slaughter departed for San Quentin today. He will spend tonight in San Francisco and leave for the penitentiary Sunday morning.

### Elks Whirling On to White Pine

From four o'clock this morning until late this evening and again at dawn tomorrow the road between Ely and Tonopah will be crowded with the purple and white streamers of the Tonopah lodge of Elks en tour to the greatest copper camp of the state where the members of B. P. O. E. No. 1062 are waiting with a greeting that has never been paralleled in this part of the country. The journey of over 225 miles across the desert at the full speed of the fastest machines owned or operated out of this camp cannot be negotiated too fast for the antlered brethren who are making the pilgrimage with a desire to accept the warm hospitality prepared by the brethren of White Pine county.

The meeting last night at the Elks club to perfect arrangements for the trip was packed with members eager to enrol their names among those going to Ely. Uniforms consisting of linen dusters, white hats with purple bands and badges bearing the name of Tonopah in the popular colors were distributed while refreshments were passed and the good fellowship of the hosts toasted. Over thirty cars have been enrolled for the trip and by this evening more than one half of the number will be on the road. Each car carries a banner with the name of Tonopah lodge, No. 1062, B. P. O. E. flaring from the sides of the tonneau. The entertainment at Ely will begin this evening with a prize fight arranged to bring together a couple of the best known mitt wielders of the eastern county and Utah for the local

### MILLIONS FOR NEW SHIPYARD

F. M. SMITH WILL ENLIST CAPITAL IN HIS WATER FRONT PROJECT

OAKLAND, May 20.—Coincident with the departure of F. M. Smith for the east, where it is said, he will enlist financial aid for the proposed \$5,000,000 water front improvements for Oakland harbor, appeared J. H. Thompson, a Belfast shipbuilder, with plans for a \$5,000,000 shipbuilding yard for Oakland. Thompson, it is understood, is backed by a syndicate of Irish and English capitalists.

Following a private conference in the mayor's office this afternoon between Captain Thompson and Mayor Davies and the city commissioners, a tour was made of the city for the purpose of selecting an adequate site. Particular attention was paid to the strip of land between the Western Pacific and Southern Pacific moles, which, it is said, could be turned into a suitable location for such a plant as contemplated by Captain Thompson at a comparatively small cost.

Captain Thompson would give no intimation of his financial backers other than to say that he would report to his interests on his return to Belfast. He made a detailed investigation of various sites during the afternoon and paid especial attention to the possibility of reclaiming tidal land holdings adjacent to the several sites which might be used for extensive shops and construction headquarters.

### OHIO POLITICAL BOSS DIES OF PARALYSIS

(By Associated Press.)  
CINCINNATI, May 20.—George Cox, politician and theatrical manager died today of pneumonia. He was stricken with paralysis in February.

### Volcano Awakes

LAVA FOUNTAINS ACTIVE AND SMOKE ASCENDS TO HEIGHT FOUR MILES

(By Associated Press.)  
HONOLULU, May 20.—Clouds of volcanic smoke and steam burst from Maunaloa on the Island of Hawaii today. The lava fountains and fire lake on Kilauea are unusually active. There was no damage or alarm. Smoke rose to an estimated height of 20,000 feet. An unconfirmed report said lava was flowing from Maunaloa.

### SWISS WILL RESIST THE BELLIGERENTS

TROOPS READY TO REPEL ANY ATTEMPTS TO CROSS THE BORDER

(By Associated Press.)  
PARIS, May 20.—Switzerland is prepared to resist with all her forces any invasion of the belligerents, according to President De Coppet. He said immediate mobilization will be ordered if the troops of any of the warring powers crossed the border.

JOHN M. FOX was a passenger today for Luning and Reno.

### BRITISH WILL TELL OF LYNCH'S FATE

(By Associated Press.)  
LONDON, May 20.—The American embassy was officially informed today that the sentence of Lynch, the naturalized American, convicted of complicity in the Sinn Féin revolt, will be announced later by the authorities.

### Umatilla Will Prospect Through the Victor Shaft

According to eastern wires, an important mining deal was consummated yesterday in New York at a meeting of the board of directors of the Tonopah Extension company. The board authorized the proposed arrangement between the Umatilla and the Montana and Extension. Under the provisions the bottom of the Victor shaft to the Umatilla lloped on the 1540 level by means of a tunnel run from Extension, the three properties sharing the expense. This work will be done for the company by the lines under a somewhat different arrangement, it. The work will then be continued inside the Umatilla plans are pending that are not yet made public, in which the three properties will participate. Other use of the Victor shaft for a term of years for but it is understood that the Umatilla will have the be organized taking in portions of the North Mo use the Umatilla deep shaft for a new company to advantage from the Umatilla shaft.

On the 19th the Extension company deal of this arrangement the Umatilla will be devedared a quarterly dividend of 15 cents a share.

### HUGHES CHOSEN BY PRIMARY

OREGON REPUBLICANS SHOW SUBSTANTIAL MAJORITY FOR NEW YORK MAN

(By Associated Press.)  
PORTLAND, May 20.—Incomplete returns indicate the Republican primary of yesterday gave Hughes a substantial majority for nomination for president over Cummins and Burton. Wilson was not opposed. The Progressives named Roosevelt as their choice.

### HEAD CRUSHED AT EXTENSION

PETER MANDICH KILLED WHILE RIDING IN SKIP IN AN INCLINE SHAFT

Peter Mandich, single, aged 25, was killed this morning while ascending the incline shaft from shaft No. 2 of the Tonopah Extension. The head of the unfortunate man was crushed and it was supposed that he thoughtlessly stood up in the skip, as his head struck the first plate. Death must have been instantaneous. The accident happened on the 1200 foot level. An inquest was held at 4 o'clock this afternoon.

### ENGROSSSED WITH MATERIALISM

AMERICANS MUST PRESERVE THE IDEALS OF FOREFATHERS TO SUCCEED

(By Associated Press.)  
CHARLOTTE, N. C., May 20.—The president addressed what is estimated to be 100,000 people at the 141st anniversary of the signing of the Mecklenburg declaration of independence. The address principally discussed the ideals of the United States. He asserted, "Americanism was needed if the United States must preserve its ideals in order to be of assistance to the world."  
"Among the men who founded America there was a great passion for human liberty. This nation has devoted itself almost too much to material things. There have been other

### FIVE MILES OF MINERALIZED TERRITORY IN TONOPAH DISTRICT

From the collar of the shaft of the East End mine to that of the Great Western is exactly five and one fourth miles. They are on one and the same parallel of latitude. This does not mean that the ore zone of Tonopah is than long and no longer, nor that it is unvarying in its direction. This instance is only given to show the general trend and extent of the development and developing formation. It is not claimed that the East End has ore, nor that the pay rock in the Great Western is yet found in commercial quantities, for both these extreme locations are yet in the prospective stage and both are still too shallow—although the East End is down 450 and the Great Western 1350 feet—to promise any great sensations in the immediate future. The Great Western, however, may not be long in heralding an important find out on the flat desert, where the water crevices lie in seams of sulphide ore, apparently as did the crevices in the Victor.

One may walk the five and a quarter miles, either due east or due west, and he will not step off ground that is not either producing or being

placed in shape to produce. He will traverse groups of claims that have been outpitting nearly a million a month for a decade and a half and which have greater potentialities today than they had when the thunder of stamps first reverberated from the slopes of Brougher and Oddie.

A theory that has not hitherto been generally discussed, or even broached, except possibly in the private reports of geologists made and preserved in confidence by the mining companies employing them is gaining recognition. The theory is that the ore zone of Tonopah does not preserve an exact easterly and westerly course, but is circular, or oval. It happens that in the portion already developed the course is east and west, but that portion has been first explored because the cap rock is thinner than at other points. Mount Brougher is the source, cause and creator of Tonopah's tremendous mineralization. It is the baby in the brotherhood of hills that frown upon the camp. Oddie and Butler towered ages before Butler was conceived in the wrath of nature, trust grudgingly and angrily from

(Continued on Page 4.)

### LEONARD WOOD AS COMPROMISE

ROOSEVELT'S PROTEGE PUT FORWARD AS AN ACCEPTED CANDIDATE

(By Associated Press.)  
CHICAGO, May 20.—Friends of Gen. Leonard Wood are reported to be planning to present his name at the Republican convention, as a compromise candidate. Supporters asserted that Wood would be acceptable to Roosevelt. Literature is being circulated. Mercer Vernon has arrived as the advance agent for a presidential boom for Senator Weeks.

### ARMY BILL ADOPTED AFTER FIERCE TIRADE

OVERWHELMING VOTE IN FAVOR OF THE PROPOSED INCREASE

(By Associated Press.)  
WASHINGTON, May 20.—By a vote of 349 to 25 the house adopted the conference report on the army bill as adopted by the senate. Hay assailed "ignorant newspaper editors," for criticism of the bill.

MRS. W. G. COTTER and son are in from Golden Arrow making purchases for the mine.  
nations just as rich as the United States. We must think of what we are going to do with our wealth and prosperity."

### ONE GERMAN WINGED IN SEAPLANE FLIGHT

DROP THIRTY-SEVEN BOMBS AND WOUND ONLY THREE PERSONS

(By Associated Press.)  
LONDON, May 20.—Three German seaplanes raided the British east coast. One was brought down off Belgium. The fleet dropped thirty-seven bombs, wounding a soldier and two civilians.

GEORGE QUIGLEY, who is one of the owners of the tungsten deposit at McKay City, is over from Goldfield conferring with his associates.
